A LEVEL QUALIFICATIONS AT BILBOROUGH

Chemistry, Biology, Psychology, General Studies.

WHERE I WENT AFTER BILBOROUGH

I studied BSc Zoology at Swansea University and MSc Environmental Biology: Conservation and Resource Management also at Swansea University.

MY MEMORIES OF BILBOROUGH

My school weren't able to offer me the choice of subjects that I picked at Bilborough and I know that if I had stayed I would have had a very different experience. The teaching at Bilborough is brilliant, and if there is any point where you are struggling then the extra help is always available. I was also able to take my AEA Critical Thinking exam at Bilborough, just another extra which helps you to stand out.

MY ADVICE TO YOU...

Do it! Bilborough is a fantastic mid-point between school and university or work. The choice of subjects is much wider than at a school 6th form and all the teachers are really passionate about their subjects. Everyone is always willing to go the extra mile to help you achieve what you need to get where you want to go. Also, Bilborough has huge range of extra-curricular activities all great fun and good for your personal statement/CV.
