MY MEMORIES OF BILBOROUGH

When I first came to Bilborough College, I was quite shy but throughout my time I not only overcame this but I also developed as a person. Bilborough College is a brilliant College with an extremely positive environment. The staff are so supportive that I was able to thrive academically and personally. My time at Bilborough College has shaped me into a young adult, ready to make my mark on the world.

MY ADVICE TO YOU...

I thought, like many other students in my situation, that I would not be able to go to University. However, doing the International Baccalaureate (which promotes independence and encourages students to put themselves out there) helped me to gain not only self-confidence but also the confidence to organise experiences that provided insight into the different aspects of teaching.
