

NAOMI SHIPWAY CLASS OF 2008–10

WHERE AM I NOW?

I am a Process Engineer for Clyde Bergemann Materials Handling (CBMH).

A LEVEL QUALIFICATIONS AT BILBOROUGH

Physics, Maths, Critical Thinking, General Studies

WHERE I WENT AFTER BILBOROUGH

I went to the University of Sheffield and studied for a Master's Degree in Mechanical Engineering

MY MEMORIES OF BILBOROUGH

Bilborough helped give me my passion for my university course and now my career. Whilst at Bilborough, I studied Maths, Further Maths, Physics and Chemistry. I could see the teachers were passionate about their subjects.

I also completed an Advanced Extension Award in Critical Thinking, I know it may sound like a cliché but it made me a more rounded individual!

I think also, going to Bilborough kind of felt like a half-way-house between school and university. Bilborough helped me to mature and become more self-motivated which was a massive help when starting at university.

MY ADVICE TO YOU...

If you are planning on going to university, find a course that you are going to enjoy! You have to work hard and often by yourself so it's so important that you enjoy what you do.
