

OUR COURSE DETAILS

As well as offering routes to both employment and higher education in Dance and the creative industries, this course develops innovative, organised and aspirational students who learn both theoretical and practical skills relevant for a wide variety of educational and professional environments.

The AQA specification is the only awarding body to offer students opportunities to study a variety of disciplines, which are directly related to employment within the theatre/dance industry, such as performing, choreographing, and critically analysing. Through the study of works, practitioners and by taking a contemporary approach to dance choreography, students develop strong employability skills, which are also transferable to other sectors. We believe this course nurtures an environment of personal ownership alongside providing opportunities for developing key research skills and independent learning techniques.
