

## Ethics, Philosophy & Religious Studies – Enrolment Task

Please go to YouTube, access **Philosophy According To Eddie**, and find the video “**01 Plato on Knowledge & Reality**” (or follow this link: [01 Plato on Knowledge & Reality](#)).

Please write answers to the questions below in note form (bullet points are suitable). Don't forget to pause the video so you don't miss anything, and remember that there's plenty more important detail in the video as well!

- When was Plato alive? Who was his teacher?
- How did Plato believe that we could find knowledge? (*include the Latin phrase*)
- According to Plato, what does the story of Meno tell us about the nature of knowledge?
- According to Plato, what are the Forms? (*include where they are, and where we are in comparison*)
- What is the Simile of the Divided Line? (*include all parts*)
- How does the soul help us to know the Forms?
- What is the Simile of the Cave? What does it mean when related to the Forms? (*include all parts*)

Please make sure to bring these answers to class with you on the first week back – you will need them soon, as they will form the backbone of your notes for the first topic.

Enjoy!

Eddie & Ashley
