Review of Marking – Priority and Standard

For students who have a **University place** that is dependent on the outcome a **Priority Review of Marking** must be requested. The outcome should be received within 15 calendar days of the exam board receiving the request.

For all other students a **standard review** can be requested. The outcome should be received within 20 calendar days of the exam board receiving the request.

This is not a re-mark; it is a post-results review of the original marking to ensure that the agreed mark scheme has been applied correctly and it is for externally assessed components only. Universities and colleges will endeavour to be flexible in keeping places open but they can only do so if they are informed of priority reviews of marking that may affect an offer. It is therefore vitally important that candidates inform the relevant universities and colleges as soon as a priority review of marking has been requested.

This service will include:

- the clerical re-checks as detailed in JCQ Service 1;
- a review of marking as described above.

IMPORTANT: We will be unable to process your request until we receive the relevant permission form (online) and your payment has been processed.
